Professional

Autodesk

Also get 1 FREE Year of Phone & Email Support
from One of the Nation's
Leading Specialists in Revit & AutoCAD.

Revit® and AutoCAD® users boast that they've easily increased productivity by up to 50% after attending our training classes. Designed to improve proficiency, these classes benefit everyone from beginners and self-taught users to experts and management. You can also expect to sharpen your creative skills, giving you and your company a real competitive edge. Your instructor is Ken Colgan, a degreed, licensed architect and a certified Revit® professional who incorporates real life design problems and solutions into every training class. In short, this will be the most dynamic training you'll have all year. But don't take our word for it, visit our web site at www.cadtechseminars.com and read what our alumni have to say.

Maximize
Revit & AutoCAD
Productivity

You May Be Eligible for Free Training
Through the Louisiana Small Business Employee Training Program

Ken Colgan is a Licensed Architect, Autodesk® Certified Revit® Professional, and an Autodesk® Authorized Author.

Learn to Tap into the Power of
Your Existing BIM and CAD Software!

Get Non-Biased Training and Consulting From An Autodesk Author.
We DO NOT sell any Autodesk® or CAD software.

Training Courses Offered

Learn to Maximize the Return on your AutoCAD and Revit Software.

What You Will Learn

These courses aim to help design professionals use Revit®, AutoCAD® and AutoCAD LT® more efficiently so that you can concentrate on the art of design instead of wasting valuable time on repetitive tasks.

REVIT

Revit Architecture
• Revit Architecture – Fundamentals	32 hours
• Revit Architecture – Collaboration Tools	8 hours
• Revit Architecture – Site and Structural Design	8 hours
• Revit Architecture – Conceptual Design and Visualization	8 hours
• Revit Architecture – BIM Management	8 hours
• Revit Architecture – Basic and/or Advanced Family Creation	8 to 16 hours

Revit Structure
• Revit Structure – Fundamentals	24 hours
• Revit Structure – Collaboration Tools	8 hours
• Revit Structure – BIM Management	8 hours
• Revit Structure – Basic and/or Advanced Family Creation	8 to 16 hours

Revit MEP
• Revit MEP – Fundamentals + Specific Fields Below	16 hours
• HVAC	8 hours
• Plumbing	8 hours
• Electrical	8 hours
• Revit MEP – Collaboration Tools	8 hours
• Revit MEP – BIM Management	8 hours
• Revit MEP – Basic and/or Advanced Family Creation	8 to 16 hours

AUTOCAD & AUTOCAD LT

AutoCAD Essentials through Advanced – All Versions
• AutoCAD Essentials	24 hours
• AutoCAD Intermediate /Advanced	24 hours

AutoCAD Update Classes
• Update to the current AutoCAD or AutoCAD LT Versions	8 to 16 hours

AutoCAD Specialty Classes
• Visit our website for a full list.

For a full list and descriptions of each of the above classes, please visit our web site at

About CADtech Seminars, LLC

CADtech Seminars, LLC is a Louisiana based company that has been teaching AutoCAD and Revit to AEC firms through both on-site and nationwide seminars for the past 14 years. While we still offer training nationwide, we are expanding our local training to include the Louisiana Small Business Employee Training Program.

Why use CADtech Seminars?

The advantage of using CADtech Seminars for on-site training and consulting is that our instructors have many years of real-world experience using AutoCAD and related design software. The trainers understand the needs of AEC and design firms and can use examples that relate to projects you have in your office. CADtech Seminars is an Autodesk Authorized Publisher and our company's mission is to teach. We are not dealers or salesman for any company, so you will receive non-biased information and training.

You May Be Eligible for Free Training

Through the Louisiana Small Business Employee Training Program

How Does It Work?

If your company has 50 or fewer employees and has been in business for 3 or more years, you may be eligible for a 100% reimbursement through the Louisiana Small Business Employee Training Program. More than 50 people? Call us about the IWTP Program.

What is SBET and how does it work?

The Small Business Employee Training Program (SBET) is designed to benefit business and industry by assisting in the skill development of existing employees through individual, standardized (off-the-shelf) training. Employers are reimbursed for tuition, required textbooks, and manuals once the training has been completed and proper documentation has been submitted to the Louisiana Department of Labor (LDOL).

The Process

First, do you qualify? You must have the following:
Louisiana business with 50 or fewer employees
In business for 3 or more years
Paying unemployment on your employees
You must be requesting training in a "demand" occupation
Note: CAD drafting is a demand occupation.

Second, contact us for available training dates and choose a course or courses for training. Please see the opposite page for a list of available training courses.

Third, fill out the State's SBET training application. The application is a simple online questionnaire. No red tape. **We will even assist you with the application process** if needed.

Fourth, once approved, the selected training will take place.

Fifth, once the training has been completed, the company being trained would pay CADtech Seminars. Documentation for proof of training would be forwarded to the state of LA and the company that was trained would be reimbursed for the training.

To learn more about the SBET free training program, go to www.cadtechseminars.com.

If you have questions or need assistance with the application feel free to call us at 985-674-0234.

Our e-mail address is:
training@cadtechseminars.com

Dates and Availability

We are constantly updating our calendar for training sessions throughout the year. Please review the training courses and call or e-mail us if you have questions or would like to discuss specific topics and availability.

How Do I Get Started?

First, contact us for available training dates and choose a course or courses for training. (Detailed course descriptions are on our web site at www.autocadtraining.com)

Second, fill out the State's SBET training application.
The application is a simple online questionnaire. No red tape. The application only takes a few minutes to fill out and we will assist you with that process. If you have questions or need assistance with the application feel free to call us at 985-674-0234.

IMPORTANT NOTE – In order to be reimbursed for the training, the application must be submitted and approved by the state prior to the training taking place. The state requests that the application be submitted 30-45 days prior to the scheduled day of training. Please consider this when planning your training dates.

Training Tools and Materials

Introducing:
CADtech Seminars'
New Mobile Training Center

We can bring the best training and training equipment right to your office.

Advantages:

• **No need to shuffle your computers around in your office.**

• **No need to call in the company IT department.**

• **Dedicated training. The wireless cards are disabled during training. So, no surfing the Internet and checking email during training.**

• **Trainees can experiment with the software settings and files knowing they will not disrupt your companies software and settings.**

• **We take care of the set up of the laptops and training equipment.**

Take Home All These Extras

1. **A Comprehensive Handbook**
   100-600 page training manual (depending on topic) containing all examples and information covered in the course, so there is no need to take notes. Detailed, step by step instructions for real life design.

2. **Training CD-ROMs**
   Containing sample files and tutorials that go along with the training manual.

3. **One FREE Year of Phone and Email Support**
   Tech support covers all materials and lessons taught in the course.

4. **A Certificate of Completion**
   This serves as your permanent record of attendance and can be used to obtain Continuing Education units from your professional organization.

RESERVE NOW – TRAINING DATES ARE LIMITED
