

## Advantages of using CADtech Seminars:

- **Our Revit trainer is a licensed Architect with 20 years of Design, CAD, and BIM experience. He is also a Certified Autodesk Revit Professional and Autodesk Authorized Author.**
- We customize our training and implementation to fit the needs of the client.
- We can assist your office with the integration and implementation of Revit and/or the latest AutoCAD versions into your office.
- If you would like, we can use any project as a working example in our training classes. This works extremely well since we put emphasis on the topics that you need most. It also brings up questions and topics that may not be found in the standard training guide and examples.
- We have a mobile training lab so you do not have to move computers all over your office.
- We stand behind our training and support. If you have any questions after the training, you will have the trainers email AND cell number.
- We do not sell software! Only training, consulting, implementation, and customization. You will get non-biased training and information, not a sales pitch.
- We are an Autodesk Authorized Author and Publisher.
- We have access to the latest software and strictly handle support, training, implementation, authorizing, and publishing of Autodesk training materials. NOT software sales.
- We can handle all of the SBET paperwork for you to save you time and headaches.

**Following is a list of companies that we have worked with in the past two years and reference contacts.**

Verges Rome Architects	Lindsay Woolf	504-488-7739
Mathes Brierre Architects	Will Tregre	504-586-9303
